WHAT IS INNOMAT?

Innomat is a unique event to meet and exchange with companies seeking and/or offering solutions in the advanced materials sector.

Organized with **Advanced Manufacturing Meetings**, Clermont-Ferrand is the unmissable place-to-be in order to gain a must-needed insight on the Factory of the Future: its processes and advanced materials.

EVENT FORMAT

One-to-one meetings for advanced materials

abe pre-arranges meetings for the supply chain, procurement, technical teams, suppliers and contract manufacturers, through a unique platform which allows participants to send requests to the companies they would like to meet with and to validate requests from companies that requested a meeting with them: **an outstanding tool which not only saves time but helps you to meet the right people.**

Thematic workshops

Thematic workshops dedicated to advanced materials will be put together in addition to BtoB Meetings. These presentations will enhance participants' expertise and improve their market knowledge. **Innomat's goal is to combine targeted BtoB meetings while raising awareness on the sector development.**

WHO CAN PARTICIPATE?

Suppliers

Suppliers providing added value and expertise in:

- Innovative Materials
- Alloys
- Green Materials
- Ceramic Materials
- Composite Materials
- Plastics / Polymers
- Nanomaterials / Nanotechnologies
- Fibers & Textiles
- Additive / Powders
- Soft Materials / Foams

You want to sell your expertise, products or services?

You are involved in:

- Sales
- Marketing
- Business Development, ...

Decision Makers

Advanced materials users from the following sectors:

- Aeronautics & Defense
- Medical/Biomedical/Healthcare devices
- Rail manufacturing
- Automotive
- Ship buildings...

You want to meet suppliers and potential industrial partners?

You are involved in:

- Supply Chain
- Procurement
- Purchasing
- Fabrication
- R&D, ...
